Art Unit: 3662

1. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1, 10, 18, and 22 are indefinite and unclear in that they are misdescriptive of the disclosed invention. In the disclosed invention, the threshold is changed depending on a threshold value stored related to the location. For example, please note the phrase "based on the information" on lines 5-6 of claim 1, the phrase "based on the type of weather" on line 5 of claim 10, and the phrase "based on weather type information" on line 8 of claim 18.

Dependent claims 2-9, 11-17, 19-21, and 23-24 are unclear in that they depend from unclear independent claims.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art herewith is of interest for showing prior art systems and methods dealing with either radar threshold adjustment or radar tilt angle adjustment.
